### **Format of "Big List Bucks"**

NOTE: The videos will be provided to you online in streaming Flash format. For copyright purposes the videos are only available online and cannot be downloaded or distributed on CD.

## **How To Start Building A Mailing List**

### **Have you ever heard the saying "The money is in the LIST"?**

I'm sure you have heard it a thousand times. I'm sure you are also aware that all the well known Internet Marketers make the majority of their online income through their email lists and through other Internet Marketers promoting their products and services through their email lists.

So if you know all of that, my next question is...

### **... do YOU have an email list?**

If you do have your own opt-in email list, are you making money from it? If you are, then great! If not, then keep reading.

If you are someone who doesn't have your own opt-in email list, then why not? You know the money is in the list! ;-)

Most people don't have an opt-in email list started because they just don't know HOW to start.

Many people are also intimidated by auto-responders and see them as a lot of work.

- you have to sign up to a company to receive these services
- you have to figure out how to set it up so you can automatically send a sequence of emails
- you have to figure out how to make one of those opt-in box thingies to collect email addresses
- you want to put the opt-in box on a squeeze page but don't know how to create a squeeze page or how to put it on your squeeze page

Hey you know what? That is a lot of work! Well at least the writing of an email series that provides your subscribers a lot of fantastic valuable information, can be hard work. But that type of hard work is worth it because you will have very satisfied customers that will be thinking if this person is giving away this for free, just imagine how valuable their paid stuff must be.

All the other stuff will also be a lot of work to do for someone that has never done it before, but it doesn't have to be.

I have found a list building guide called "Big List Bucks" that provides 7 videos that shows you step-by-step how to:

- set up your auto-responder
- how to build your list fast
- how to find starving crowds
- how to create a squeeze page that attracts people to opt-in
- how to create emails that people will open
- how to create emails that will encourage people to buy
- how to drive massive amounts of traffic to your squeeze page

This package contains all the information that you need to finally get started on building a profitable list. All the information is laid out in easy to follow videos that will make the hard scary part of starting, a breeze. If you learn better by reading text, the guide is also available in pdf format. Plus if you would like to listen to it while you are traveling, Big List Bucks is available in mp3 format as well.

So there you have it, there is no more excuse! You know how profitable list building can be and now you can be shown the right way to do it, the profitable way to do it and best of all, the easy way to do it. Go check out "Big List Bucks" now!
